Advisory

Applications for Importation of Ammunition

The Firearm Licensing Authority (FLA) wishes to advise all licensed firearm dealers that effective immediately, all applications for the importation of ammunition into Jamaica **MUST** specify the type of rounds/cartridges being imported. For example:

- **12 gauge cartridges- Buckshot, Birdshot or Slug**
- **9MM rounds- Hollow Point or Ball Ammunition**

We have attached hereto, for ease of reference, a specimen of a completed application for importation.

In any case of doubt, please contact the Corporate Planning and Client Relations Unit via the number/email listed below. We anticipate your continued cooperation and understanding as we continue to align our policies and procedures with the Firearms (Prohibition, Restriction and Regulations) Act 2022.
